SUBJECT:

Request to Exceed Work Order Finding Limitation
MWR #8158 - Replace Camera Recorders
MCC New York

As described in the Facilities Operations Manual PS4200.12, Chapter 2, Page 4, I am requesting your approval to exceed the \$10,000.00 work request funding limitation for Minor Work Request (MWR) #8158. This MWR is required to replace (2) DVRs for the NICE camera system, the encoders and decoders as well as rack mounts and power supply, the server, purchase a recorder redundancy license for 350 channels, install 272 cameras and upgrade software for said systems. The vendor will also provide 4 hours of on-site training for operators and administrators.

I certify that materials have not been ordered and construction work has not been performed on MWR #8158.

MWR Estimated Cost: \$800,000
Funding Decision Unit: E1
Estimated Staff Man Hours: 800
Estimated Start Date: December 1, 2018
Estimated Completion Date: February 9, 2019

I have included MWR #8158, Schedule of Cost Input (SCI) and Independent Government Estimate (IGE) for your reference.

If you have any questions or concerns regarding this matter, please contact me directly.

MEMORANDUM FOR [REDACTED]
NORTHEAST REGION

FROM: [REDACTED]
MCC New York

SUBJECT: Request to Exceed Work Request Funding Limitation
MWR #8158 - Replace Camera System
MCC New York

It has come to my attention that the work request referenced above will require MCC New York to exceed the \$10,000.00 work request funding limitation. Therefore, I am submitting this request for approval to exceed the funding limit policy. This request is submitted in accordance with the guidelines set forth in Facilities Operations Manual, PS4200.12, Chapter 2, Page 4.

The statement of work for this project is as follows: This MWR is required to replace (2) DVRs for the NICE camera system, the encoders and decoders as well as rack mounts and power supply, the server, purchase a recorder redundancy license for 350 channels, install 272 cameras and upgrade software for said systems. The vendor will also provide 4 hours of on-site training for operators and administrators.

I certify that materials have not been ordered and construction work has not been performed on the minor work request referenced above.

Work Order Estimated Cost: \$800,000
Funding by Decision Unit: E1
Estimated Staff Man-Hours: 800
Estimated Start Date: December 1, 2018
Estimated Completion Date: February 9, 2019

All supporting documentation is attached for your reference. If you have any further questions or concerns regarding this matter, please contact me.

Section 3 - Contract Clauses

Clauses By Full Text

52.232-18 Availability Of Funds (Apr 1984)

Funds are not presently available for this contract. The Government's obligation under this contract is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are made available to the Contracting Officer for this contract and until the Contractor receives notice of such availability, to be confirmed in writing by the Contracting Officer.

(End of clause)

Section 4 - List of Attachments

No Clauses

No Attachments

**LIMITED-SOURCES JUSTIFICATION
IAW FAR 8.4 13.106-3**

1. **REQUIRING AGENCY:** DOJ/Bureau of Prisons, MCC New York, 150 Park Row, New York, NY 10007
2. **NATURE/DESCRIPTION OF ACTION:** Limited Sources Justification in accordance with FAR 8.405-6(a)(1)(A) and 13.106-3(b)(3)(i). Urgent and Compelling Need.

3. **DESCRIPTION OF SUPPLIES OR SERVICES REQUIRED TO MEET THE AGENCY'S:** The Agency requires two (2) Nicevision Professional Smart Video Recorder Digital Video Systems to be supplied and installed at MCC New York. This requirement includes the provision of all equipment and labor for the replacement of existing DVR system with an upgraded NVR system. MCC New York has two ninety six (96) channel DVR's which have failed repeatedly, leaving critical areas of the institution without video coverage. There are no OEM replacement parts available for purchase to repair the recorders. The current recorders use obsolete technology that cannot be upgraded without upgrading the equipment. The current equipment is unsupportable, unreliable, and has exceeded its life expectancy. Cameras and records are an essential component that support a safe and secure environment for both inmates and staff. It is unusual and compelling urgency to meet this requirement to maintain supervision of exit doors in the inmate housing areas, safeguarding government property, and to avoid seriously bodily harm.

The estimated value of this requirement is \$696,108.99

4. **AUTHORITY:** Acquisition is conducted under the authority of the Multiple-Award Schedule Program - 41 U.S.C. 152(3) in accordance with FAR 8.405-6(a)(1)(A) and 13.106-3(b)(3)(i) an urgent and compelling need exists, and following the procedures would result in unacceptable delays.

5. **DEMONSTRATION THAT THE PROPOSED CONTRACTOR'S UNIQUE QUALIFICATIONS OR THE NATURE OF THE ACQUISITION REQUIRES USE OF THE AUTHORITY CITED:** MCC New York is a Federal Prison and safety and security is of the utmost importance. A proper functioning security system is vital to carrying out our mission. The procurement of the NICE Vision upgrade will allow appropriate video storage, playback and still images capture, as well as the ability to control the PTZ camera for security needs within a prison setting where video footage is reviewed routinely to determine improper activity within the institution and is often used to support legal cases. Failure to have this capability puts the institution at an extreme risk and liability. Additionally, we lost recording capabilities in some areas which made this an urgent and compelling need. Failure to make this award immediately would result in safety and security concerns for staff and inmates and increase liability to the government.

SigNet Technologies, Inc. (SigNet) is the current provider of all Digital Video Recording Systems Maintenance Services for the Bureau of Prisons (BOP). These services are procured under Blanket Purchase Agreement DJBP00700NASBPA113. SigNet is also an approved distributor of NICE products and can provide the required supply of equipment and installation of the upgraded system under the terms and conditions of Federal Supply Schedule GS-07F0322T

The recording system, required to be connected to the existing BOPNET (Bureau of Prisons Network) WAN system, must follow strict IPV6 protocol standards. Currently, the NICE Whole System is approved for BOPNET and is maintained by SigNet under the terms and conditions of GS-07F0322T. Any other system that has not been approved must be vetted and evaluated prior to utilization. This process would take between six months to one year.

SigNet is ready to receive the delivery order for the supply and installation of the NICE recording system.

6. **BEST VALUE:** Pricing proposed is comparable to previous prices paid for similar requirements and is in line with the government estimate provided by Bureau's facility staff. It is in the government's interest and in my determination, issuing an order under the terms of GS-07F-0322T represents the best value for this requirement consistent with FAR 8.404(d).

7. **A DESCRIPTION OF MARKET RESEARCH CONDUCTED AND THE RESULTS:** A brief review of the contractor listing for FSS 84, SIN 246 60 1 revealed SigNet holds a current FSS contract. SigNet is a known contractor who has established a record of satisfactory performance in servicing security systems across the Bureau. SigNet is capable of meeting the requirement at a reasonable price and due to the urgency in obtaining this equipment, no other sources were considered.

8. **ANY OTHER FACT SUPPORTING THE JUSTIFICATION:** In accordance with FAR 8.405-6(a)(2)(iv) this justification will not be posted to the Government Point of Entry (GPE) due to security risks. A public posting that MCC New York currently has an unstable and often-inoperable video recording system, could potentially endanger inmates and staff safety.

9. **ACTIONS TO REMOVE OR OVERCOME ANY BARRIERS TO COMPETITION BEFORE ANY SUBSEQUENT ACQUISITIONS:** This action is necessary due to existing security concerns of failing equipment that is essential to the safety of staff and the inmate population incarcerated at MCC New York. Future requirements of similar magnitude will be ordered in accordance with the procedures at FAR 8.405-1(d) on a competitive basis as circumstances allow.

TECHNICAL CERTIFICATION:

I hereby certify that the supporting data provided by the technical and requirements personnel that for the basis for justification is complete and accurate to the best of my knowledge.

[Redacted Signature] 9-19-18
Date

In accordance with FAR 8.405-6(d) and BPAP 8.405-6, I certify this justification is accurate and complete to the best of knowledge and belief.

Section 3 - Contract Clauses

Clauses By Full Text

52.21-603-70 Contracting Officer's Representative (COR) (June 2012)

(a) JEFF COLTON, FACILITES MANAGER, MCC NEW YORK, [Area Code and Telephone Number], is hereby designated as the Contracting Officer's Representative (COR) under this contract.

(b) The COR is responsible, as applicable, for: receiving all deliverables, inspecting and accepting the supplies or services provided hereunder in accordance with the terms and conditions of this contract; providing direction to the contractor which clarifies the contractor effort, fills in details or otherwise serves to accomplish the contractual Scope of Work; evaluating performance; and certifying all invoices/vouchers for acceptance of the supplies or services furnished for payment.

(c) The COR does not have the authority to alter the contractor's obligations under the contract, and/or modify any of the expressed terms, conditions, specifications, or cost of the agreement. If as a result of technical discussions it is desirable to alter/change contractual obligations or the Scope of Work, the Contracting Officer shall issue such changes.

2852.223-70 Unsafe Conditions Due to the Presence of Hazardous Material (June 1996)

(a) "Unsafe condition" as used in this clause means the actual or potential exposure of contractor or Government employees to a hazardous material as defined in Federal Standard No. 313, and any revisions thereto during the term of this contract, or any other material or working condition designated by the Contracting Officer's Technical Representative (COTR) as potentially hazardous and requiring safety controls.

(b) The Occupational Safety and Health Administration (OSHA) is responsible for issuing and administering regulations that require contractors to apprise its employees of all hazards to which they may be exposed in the course of their employment; proper conditions and precautions for safe use and exposure; and related symptoms and emergency treatment in the event of exposure.

(c) Prior to commencement of work, contractors are required to inspect for and report to the contracting officer or designee the presence of, or suspected presence of, any unsafe condition including asbestos or other hazardous materials or working conditions in areas in which they will be working.

(d) If during the performance of the work under this contract, the contractor or any of its employees, or subcontractor employees, discovers the existence of an unsafe condition, the contractor shall immediately notify the contracting officer, or designee, (with written notice provided not later than three (3) working days thereafter) of the existence of an unsafe condition. Such notice shall include the contractor's recommendations for the protection and the safety of Government, contractor and subcontractor personnel and property that may be exposed to the unsafe condition.

(e) When the Government receives notice of an unsafe condition from the contractor, the parties will agree on a course of action to mitigate the effects of that condition and, if necessary, the contract will be amended. Failure to agree on a course of action will constitute a dispute under the Disputes clause of this contract.

(f) Nothing contained in this clause shall relieve the contractor or subcontractors from complying with applicable Federal, State, and local laws, codes, ordinances and regulations (including the obtaining of licenses and permits) in connection with hazardous material including but not limited to the use, disturbance, or disposal of such material.

(End of Clause)

52.24-403-70 Notice of Contractor Personnel Security Requirements (OCT 2005)

Compliance with Homeland Security Presidential Directive-12 (HSPD-12) and Federal Information Processing Standard Publication 201 (FIPS 201) ¹ entitled "Personal Identification Verification (PIV) for Federal Employees and Contractors," Phase I.

1. Long-Term Contractor Personnel:

In order to be compliant with HSPD-12/PIV I, the following investigative requirements must be met for each new long-term ² contractor employee whose background investigation (BI) process begins on or after October 27, 2005:

a. Contractor Personnel must present two forms of identification in original form prior to badge issuance (acceptable documents are listed in Form I-9, OMB No. 1615-0047, "Employment Eligibility Verification," and at least one document must be a valid State or
